

Passport™ P-Series Headsets

Go First Class.
VXI's Passport-P headsets connect easily to Plantronics® amplifiers

Simply attach the VXI Passport-P headset to the Plantronics cord (amplifier or direct connect) for easy integration in the contact center. Built to withstand the pressures of the 24/7 call center, Passport-P headsets are constructed with the same impact resistant plastic used in sporting equipment, meaning fewer repairs and less hassles. High quality components ensure clear audio communication on both ends of the call and the ultra comfortable fit reduces agent stress.

2 YEAR *Unconditional*
WARRANTY

Passport 10-P

Passport 20-P

Features and Benefits

- Compatible with Plantronics quick disconnects for connection to Plantronics amplifiers or direct connect cords
- Noise-canceling microphone significantly reduces background noise for a more professional sounding call
- Concave ear cushion for superior comfort and sound
- Highly flexible microphone boom stays in position and is easy to adjust for proper microphone placement
- Sturdy disconnect allows fast and easy detachment from lower cord for greater mobility
- Adjustable headband provides a secure, comfortable fit
- Left or right side receiver/microphone placement

The Passport-P headset features a Plantronics compatible quick disconnect.
